

Fuel the Future High School Video Contest

August 22, 2016 - January 13, 2017

Each year, the Iowa Renewable Fuels Association (IRFA) awards \$2,000 in prize money, including a **\$1,000 grand prize**, to the Iowa high school students who create the best video encouraging motorists to choose cleaner-burning, homegrown renewable fuels, like E15 and biodiesel.

This year's 7th Annual Fuel the Future High School Video Contest starts **Monday, August 22, 2016** and closes **Friday, January 13, 2017**.

This contest is not only a great tool to get new forms of media into the classroom, but also an excellent way to get students engaged on issues that matter to them and their state. Iowa is the nation's leader in renewable fuels production, and ethanol and biodiesel provide serious benefits to Iowans, including cleaner air, lower prices at the pump, greater energy security, and a more renewable future.

**For more information on the contest, please visit:
